

**Installation Instructions for
HP564/920, Canon BCI-3/6, PGI-5/CLI-8, PGI-220/CLI-221 compatible cartridges**

1. Pull off the yellow tag

2. Remove the yellow protective yielder from the inkjet cartridge

3 Install the inkjet cartridge into the printer

When the original chip (HP 564/920 only) is installed ,The printer will not display the ink level, Please dismiss the message and continue to print. OEM chip is just for recognizing the cartridge in the printer, there will be a break line when the ink is used up, the customer should take out the cartridge from the printer to see if it needs to be replaced.
